#### **NGO: Educate Girls Now**

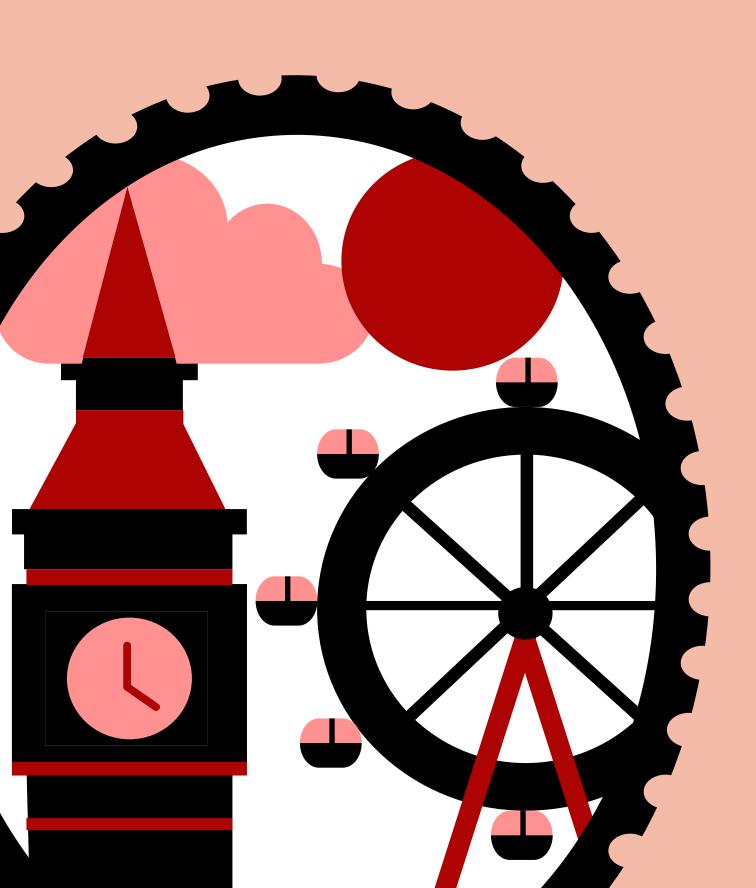

In January 2023, the Afghan English Language Tutoring Project was launched, a new collaboration between ESL and the NGO Educate Girls Now (EGN).

• Students enrolled in introductory TESOL course, English 415, serve as English language tutors for girls and young women who have been deprived of educational opportunities in Afghanistan.

"Our partnership is a tribute to the UW ESL Program and English Department's generosity of heart, commitment to education, and the desire to empower these amazing young girls and young women. This is one of the best educational opportunities and sources of hope for our students amidst all the darkness that surrounds them. It has truly been a lifeline to the girls in the aftermath of the Taliban takeover and the dashing of their hopes of ever obtaining an education."
